Director's Report

Materials and Services

- All Lake Agassiz Regional Library locations will participate in Food for Fines during the month of March. During this program, customers may bring in canned food items in exchanged for waived fines. One non-perishable food item will equal one \$2 fine waived. FoodShare Minnesota will match food donations to Minnesota food pantries during the month of March.
- The teen pages on the new LARL website includes a book recommendation feature called "Your Next 5 Books." Young readers are invited to fill out an online form indicating their reading interests, and library staff will contact them with a list of recommended titles.
- The Moorhead Library will participate in a Digital Literacy project, in partnership with a project started by the Friends of the St. Paul Public Library. This group received an LSTA grant to expand usage of the Northstar Digital Literacy Assessment statewide. Managing partners of the project are the St. Paul Public Library and the Minnesota Literacy Council. These managing partners will work with both the Moorhead Library and Adult Basic Education to offer classes and training sessions relating to digital literacy. The logistics of the project, and the Moorhead Library's involvement, has not been fully determined.

 - Sara and Jenna are working with a Concordia 3-D class as part of their curriculum to work with a client and create a design project that would help add a welcoming environment and elements of play and learning inspired by our experience by hosting the exhibit Storyland from the Minnesota Children's Museum.
